

NEW PARKING REQUIREMENTS

To all residents and owners,

Please be advised of new parking requirements mandated by the Fire Department. Additional spaces have become "compact cars only" to allow the Fire Department to more safely and quickly access all sides of the building in the event of an emergency. These changes are for all our safety. Their large trucks have a hard time making turns and large vehicles impede their path. They originally wanted us to either eliminate spaces or make them motorcycle only. Larger vehicles are not to use compact only spaces, not even for a few minutes. The Fire Department intends to enforce the parking restrictions or have Sea Castle eliminate spaces if the restrictions are not followed. They have also requested that all vehicles park as close to the bump stops as possible. Please notify all guests and renters of this change. Please see the attached picture for "compact car only" locations and be aware of new signage. We don't want to see anyone have their car towed.

*Note, the Fire Department will be onsite in the near future for training.

Thank you,

Castle Council Board of Directors
